

# ERNTEZEIT.APP

Three inputs. One yearly plan.

YOUR  
RAISED-BED  
PLANNER

Erntezeit shows you what to plant in your raised bed and when – tailored to your location, climate zone, and bed size.

For everyone who wants to know what their bed really needs right now. ♡

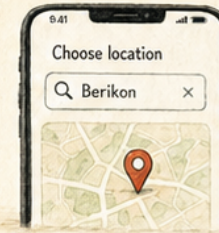

1

# LET'S GET STARTED!

How to use Erntezeit

## 1 CHOOSE LOCATION

Type in your ZIP code or town – we pull climate zone and frost weeks from real weather data.

## 2 ENTER BED SIZE

Measure your bed once – Erntezeit knows how much space each plant needs.

## 3 CHOOSE VEGETABLES

Tap your favorite crops – from tomato to pak choi. Stachi handles companion planting and pre-/post-cropping.

2

# YOUR YEARLY PLAN – DONE.

Everything you need, all in one place.

## THE FEATURES

- YEARLY GANTT** – Sowing, planting, harvest – week by week.
- PRE- & POST-CROPS** – What comes after what. Keeps the bed productive.
- COMPANION PLANTING** – Stachi tells you which plants get along.
- BED LAYOUT** – To scale. With drag & drop.
- PDF EXPORT** – Print it, stick it on the fridge, done.
- REMINDERS** – Push and email when the last frost dates are coming.

3

## WHY ERNTEZEIT?

- ✓ Swiss climate data, not generic US defaults
- ✓ Works worldwide (USDA Zones 3a–13)
- ✓ GDPR-compliant, without tracking madness
- ✓ 1 bed free, forever

## WHO IS IT FOR?

- For raised-bed beginners and garden pros
- For gardens in Switzerland and around the world
- For people who want to harvest – not guess

## HOW IT WORKS – IN 4 STEPS
